Re: Lime Sludge Pumps

Larry:

Jane in Purchasing asked that you receive the enclosed information on Wemco pumps for lime sludge at the Three Rivers Filtration Plant. The existing pumps are Wemco 4 x 4 Model WP with hi chrome construction. Wemco no longer offers hi chrome and could provide stainless steel. As a second alternate, we recommend ni-hard construction which was installed by the Huntington Water Plant about eight years ago on lime sludge. The ni-hard is less expensive than stainless (or hi chrome). We also recommend the longer "WPL" style in lieu of the "WP" design originally furnished to lower the pump casing. Specifications and drawings for the ni-hard Model CE WPL and stainless steel Model E WPL are enclosed. Pricing for each is as follows:

One (1) Model E 4 x 4 x 9 WPL Wemco Torque Flow with stainless steel wetted parts. . . $13,460

* One (1) Model CE 4 x 11 WPL Wemco Torque Flow with ni-hard wetted parts. . . $5,980

~~Each pump~~ can handle 500 gpm at 55' TDH and would include a 20HP 1750 RPM, ODP motor.

Please call if you have any questions.

Sincerely,

Don Mink
